# Corporate Account Program

## What it is....

The Secure Care, Corporate Account Program – is designed to provide you with the breadth of technology to support your mission. The integrity of our certified service and support partners – to ensure the functional and economic value of your time and investment.

## Secure Care – Our History....

- 1946** | Caregivers since 1946 – Secure Care has experience owning and operating long term care facilities, where they witnessed a need for better security
- 1979** | Founded in 1979 – with six employees....and the introduction of the 1st senior care electronic security solution, a rubber floor mat antenna for the entry/exit doors
- 1990** | Developed in 1990 – Secure Care created and released the healthcare industry's 1st infant security solution
- USA** | Secure Care is headquartered in Concord, New Hampshire, and all of our products and solutions are manufactured in the United States

## Corporate Account Program – delivers to you, our customer....

- ✓ **Functional Value** – Identifiable and repeatable process to assess, design, install, support and service; senior care and assisted living wander management technology solutions.

Consistent performance in sourcing, materials and delivery, through our Secure Care certified partners.

- ✓ **Economic Value** – Safety & security investment which leverages pre-defined solution pricing, with no volume purchase requirements (no quota).

With increasing scale, the more doors and systems that are upgraded and/or added, the greater the discount.
